

Nest Consulting's

Positive Puberty Plus® Programme Set Up

We appreciate being able to start the Programme as soon as possible after the roll is taken, particularly if the morning tea is as early as 10:30am ☺

We also appreciate you ensuring the learning space has enough room for each team to sit together (either in circles on the floor or at a grouping of desks) and there are facilities for a PowerPoint presentation with sound and access to a white board.

We ask that **prior** to the student programme day you:

If cohort numbers are greater then 60 split your classes into two (or more - max of 60 in any group) mixed gender groups. Each group will work solely with one Educator throughout the day.

- * Divide each group into equally sized **teams** you feel will work well together.
- 6 teams in each group please (unless smaller numbers in which case we will advise)
- Please ensure each team has a mixed ability (if more than one year group please mix the year groups up).
- * Give each team a colour for recognition:
Blue, Green, Purple, Yellow, Red and Orange.
- * Choose a team leader for each team and identify them with a badge or sticker featuring their name and team colour.

In addition:

- > Print out the 2-sided worksheet (see email attachment) for all students.
- > Print out the evaluation form for as many Teachers as are present (the Student evaluation is in the form of an online 'survey monkey': see email for link).

We look forward to working with you soon.
